

# RECENTLY DIAGNOSED WITH PARKINSON'S?

A yellow circular logo with the text "PD" in large black letters and "101" in smaller blue letters below it.

PD  
101

Houston Area Parkinson Society offers an educational program for those who have been diagnosed with Parkinson's within the last three years. This "Parkinson's 101" course provides an introductory look at the disease, treatment options and proactive disease management strategies. The program is held five times a year with each session presented by a different movement disorder specialist.

## ABOUT HAPS

HAPS is an independent nonprofit organization that provides free comprehensive services for individuals and families affected by Parkinson's disease in the eight-county region of the metropolitan Houston area. HAPS exists to ensure that no one faces a Parkinson's diagnosis alone.
